Read the two sides of this story and then give a verdict on the evidence as merits of Dr. Pierce's Golden Medical Discovery.

WHAT MRS. HAYTER SUFFERED. "I had been sick for more than a year with kidney trouble," writes Mrs. Lucy Rayter, of Jacksboro, Jack Co., Texas. "Several different doctors treated me, but none did me any good. One doctor said that I never could be cured, that I had Bright's Disease. I suffered nearly death at times; had spells the doctors called spasms. Was bed-fast most of the time for six months. My mother begged me to try Doctor Pierce's Golden Medical Discovery."

WHAT DR. PIERCE SAID.

a With but little hope I wrote to Dr. Pierce, and he said 'he could cure me.' I began to take his 'Golden Medical Discovery,' and although I had given up to die. I began to improve from the start, and by the time I had taken twenty-two bottles I was entirely cured. I weigh more than ever before in my life and am entirely well."

Dr. Pierce's Golden Medical Discovery cures diseases of the stomach and other organs of digestion and nutrition. It cures through the stomsch diseases of heart, liver, lungs, kidneys, etc., which have their origin in disease of the stomsch and its associate organs.

matines "A Midnight Froile" and "Escaped from Sing Sing" at night.

There was a larger attendance at both performances than that which greeted them on their first accentance and the company's players a Med to the favor they won from their nutletness on Monday. The imperfections that often characterize the expect tre companies are uncommonly well overcome in Mr. Braunig's company; acting that will compare very well with that of the higher prived attractions is frequently seen in the characters of the plays. The specialities are also particularly meritorious, and the pictures are arristically displayed. The bill for this evening's matine is "Drifted Apart" and for tonight "Under Two Flags."

The company will play two performances daily for the vest of the week.

AN ADDITIONAL ENGINE HOUSE Is to Be Located on a Suitable Site in

the Fourth Ward. Mayor Woolford and Alderman O'Leary paid a visit to the Fourth ward yesterday afternoon with a view to selecting a suitable site on which to locate an additional engine house for the fire department. It is the desire of these gentlemen to scure a location as near the center of the ward as possible. The site which they regarded with most favor is at the corner of Polk and Baldwin.

MAY BE CURTAILED ON ACCOUNT OF INADEQUATE FIRE PROTECTION.

A Committee from the Fire Prevention Association Investigating Conditions. What Chief Hussey Has to Say,

The presence in the city of Messrs Charles H. Pescay, James S. Hereford, John S. Aldehoff, George Pfonts, E. R. Keeling, John M. Thomas and J. V. Spears, all of Dallas, was mentioned yesterday. These gentlemen compose a committee on fire protection sent out by the Texas Fire Prevention association to investigate the adequacy of the protection furrished at this point. The committee exprets to conclude the investigation today and will make a report of its findings in this regard. The points which the committee wishes to determine are, whether er not inadequacies in fire protection exist; if so, are they excusable or inexcusable, and will the defects, if they exist, be prints from time to time that such and men conditions prevailed at different disastrous fires of recent date in the city's history, and that had conditions been differcut the losses would have been materially edeced. They claim that these reports have reached the cars of the companies;

reduced. They claim that these reports have reached the cars of the companies; therefore the committee has been sent here to investigate and report. An investigation similar to the one now being conducted here occurred at Dallas recently and through the influence of the Commercial club the city council was prevailed upon to remedy the defects. Otherwise it is claimed, Dallas weelld necessarily have been reduced from first to second place. The committee was ungaged yesterday with Chief Hussey of the fire department in looking over the fire department in looking over the fire struction, and, as above stated, expects to make a report today.

On the above subject, Chief Hussey had the following to say: "The Fire Prevention association has no kick coming on the houston fire department. I am informed that some of the fires complained of occurred outside the fire limits of the city. The total figures of fires hast year were as follows: Total property involved in fires, \$3,043,965; insurance \$1,401,066; fotal insurance damage \$229,277,50. Galvesion and Dallas are rated as first class towns. There is not a piece of modern manulatory or apparatus in Galevston and Dallas is the rockiest town in North Texas in point of fire protection. All of our apparatus is modern, and Houston has she best pumping machinery in the world. "I was giad to see an editorial in The Post the other day advocating municipal fire insurance. That is a hobby of mine. I believe municipal insurance would so burden the city with money in a few years that after it had paved every street and furnished every modern appliance, it would be necessary to stop taxation altogether in order for the municipal insurance, and taxes in that respect. I sm firmly of the opinion than water works and electric light plants are not in it, as compared with municipal insurance, and I should like to see it tried here in Houston."

An Unusual Case,

Upon a complaint sworn out by Mr. Herman Lippett, Bill Dickerson, of the colored waiters at the remedied? Members of the committee on the charge of assault. Mr. Lipsials that it has gone abroad in the public pett's statement is that because he rehotel, was arrested yesterday fused to give Dickerson a "tip" he locked him up in the dining room at the hotel and sim up in the dining room at the hotel and kept him imprisoned there until he went to an open window and gave an alarm. His explanation as to how he came to be locked in the dining toom was that he was the last at breakfast. He says he appealed to the water to let him out, but he declined to do so until he had been "tipped." Mr. Lippett does not claim to have been assaulted by Dickerson, though the charge is that of assault.

MENI DO YOU?

Do you want to be strong? Do you want to feel the vim, the snap and fire of vigor? Do you want courage, energy and ambition to support you in your cares and troubles?

I have devoted my life to the development of manly and womanly vigor. I've made a great success. My methods are approved by the greatest doctors, and copied.

I've proven that electricity is the basis of all animal life, and that "weak men," dyspeptics, rheumatics, sufferers from lost energy, weak kidneys, pains in the back, head, chest and shoulders, from varicocele and its allied weaknesses, etc., are weak in electricity. My Electric Belt restores this life in a few weeks and cures every time.

Describe your case to me and if I say I can cure you I will guarantee to do so. Drugs won't restore your strength. They only stimulate. If you have to take a stimulant take whisky. Taken in moderation it does less harm than the others. I will gladly send you my book on this subject. It has 82 pages of interesting matter for weak people. Sealed, free. I take imitations of my Belt in trade, just to show how much better mine is.
